

# ROAD SAFETY CALCULATOR

## STRATEGIC DECISION SUPPORT TOOL

Global Stakeholder  
Outreach Webinars  
October 2020

The World Bank Global Road Safety Facility, Iowa State University and Monash University would like your thoughts on a new tool that is being designed to support road safety strategy selection in low- and middle-income countries. Please participate in one of our webinars to help us understand your road safety analysis needs.

Fatalities and serious injuries from road crashes are a growing problem in nearly all low- and middle-income countries. With funding from the UK Aid, the World Bank's Global Road Safety Facility has undertaken the development of the Road Safety Calculator. This new tool is intended to allow practitioners to quantify the benefits of implementing road safety strategies.

The objective is to help government agencies and non-governmental organizations set priorities for road safety interventions in the areas of road user behavior, vehicle safety features, roadway infrastructure, and traffic speed management. Anticipated tool users include practitioners in public policy, public health, city planning, engineering, law enforcement, and more.

Research on the technical foundations for the Road Safety Calculator is currently underway. As part of this process the project team is gathering information about the characteristics and needs of potential tool users. If you or others in your organization are possible tool users, we would like to invite you to participate in one of three planned webinars.

Each session will provide an overview of the tool, followed by small-group discussions to learn more about desirable applications of the tool, country-specific data and policy constraints, and information and training needs. We also hope to learn how the tool might fit into your decision-making process.

Each online meeting session will have the same content, so feel free to register only for the date and time that best fit your schedule:

TIME ZONE	SESSION A	SESSION B	SESSION C
HONOLULU	27-Oct-2020 00:00	28-Oct-2020 16:00	29-Oct-2020 09:00
MEXICO CITY	27-Oct-2020 04:00	28-Oct-2020 20:00	29-Oct-2020 13:00
